

Cleaning Wheel Solution Dura-Bright® Wheel Wash

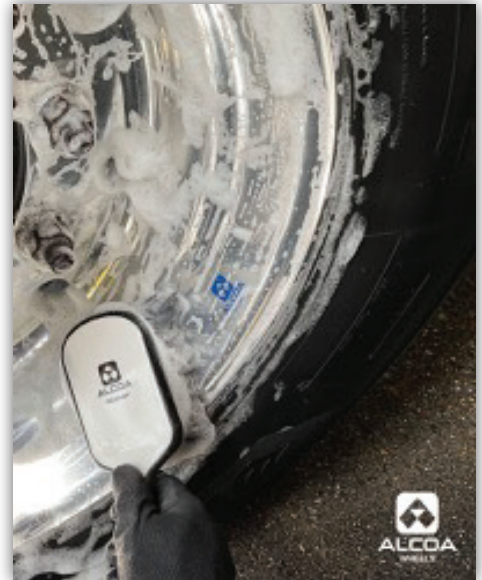

Why accessories for Alcoa® Wheels?

Boasting decades of industry expertise, Alcoa® stands as a beacon of excellence in aluminium wheel manufacturing. Our commitment to superior quality doesn't stop at our wheels; it permeates through to every facet of wheel upkeep and care.

Take your Dura-Bright® experience to new heights with the Dura-Bright® Wheel Wash, expertly engineered to enhance the luster of your Dura-Bright® finish. This exclusive cleaning solution undergoes rigorous testing and has received the full endorsement from the creators of Dura-Bright® wheels, assuring you of its superior performance and the protection it offers to your investment.

- Maintaining your Alcoa® Wheels is and should be a top priority.
- Accessory Products for Alcoa® Wheels have been developed and selected over many years to maintain the wheels in the best possible condition and ensure a long service life.

Cleaning

Dura-Bright® Wheel Wash for Dura-Bright® finish

A cleaning solution explicitly developed for the Dura-Bright® finish. Tested and approved by the producer of Alcoa® Wheels. Suitable for weekly use on both Dura-Bright XBR® and EVO technology.

Dura-Bright® Wheel Wash was especially designed to provide the assurance to customers that they are cleaning their wheels with a safe cleaning solution while providing additional benefits.

- Helps to prevent the build-up of brake dust and discolouring
- No risk of damaging wheels with harsh cleaners or chemicals
- Ready to use, no need to dilute
- Not classified as dangerous good
